

## **MAGIC WORDS and WHAT ARE MY OPTIONS MR UMPIRE**

For sportsman's nights or sportsman's club promotions Dale introduces a range of varying presentations depending on what format is requested. For straight humour the above presentation involves Dale looking back "nostalgically" at his humble beginnings in Australia in the early 1970's as he struggled to cope with the local Australian language and the machinations of some of its sports like cricket and Aussie Rules.

Over approximately 30 minutes Dale takes his audience on a roller coaster ride of country life and local humour as he struggled to come to grips with what he fondly describes as a Yanks version of Aussie English. No doubt you will learn a whole new vocabulary where the meaning of words like "rubbers, rooting, fannies, hoods and bonnets, drawing pins, sticky tape, dusters, shifters and back pockets, take on a whole new meaning when seen through the eyes of a "Yank in Oz".

Treat yourself and your organisation to an English lesson like you never had at secondary school. You can be guaranteed that this will not be like any presentation you have heard at previous sportsman's nights and it is rated GP for audiences of all ages. Contact Dale now and let the laughter begin.
